

How to improve your CDP results?

The three steps of DFGE's support for your CDP participation

DFGE Check

Official CDP Climate Change Response Check
CDP Water Extended Review
Validation of carbon footprint calculations

DFGE Consult

Gap analysis of previous CDP answers according current methodology
Workshop regarding CO2 management and reporting, targets and measures
Focused content relating to particular topics

DFGE Complete

Calculation of Carbon footprint according to GHG Protocol guidelines (Scope 1, 2, 3)
Response propositions for the complete CDP questionnaire based on your data
Turnkey implementation directly in CDP's ORS system

Are you prepared for the next round?

Individual workshop regarding CO2 management & reporting

Changes in CDP 2019
Meet GHG protocol requirements in an optimal way
CO2 balance: Tracking of changes and reduction measures
Develop reduction targets / Science Based Targets
Make use of synergies to other reportings and standards
(TCFD, GRI, RobecoSAM and more)

Dominik Werth
Head of Quality Management, X-label GmbH & Co.KG

Our collaboration with DFGE was characterized by professionalism, reliability and – very important – passion for their work from the beginning on.

Prof. Dr. Georg Stephan Barfuß
Sustainability Manager Dräxlmaier Group

DFGE – institute for energy, ecology and economy – was founded in 1999 as spin-off of the Technical University of Munich and offers complete consulting, software and audit solutions in the field of CSR. Our offer Sustainability Intelligence comprises management and reporting solutions related to CSR and sustainability topics (among them being greenhouse gas emissions), and refers to international norms in this field. Our clients comprise international companies (DAX and fortune 500), SMEs, governmental organizations or territorial authorities. For more information, contact us: info@dfge.de.
