CDP

2025

For your successful CDP participation

We have been an official **CDP Silver Climate Change Consultancy Partner** for over 10 years and are therefore in close contact with CDP experts. As our customer, you benefit from our experience gained from over 300 projects. We help you improve through the holistic orchestration and integration of your sustainability efforts.

Further information is available at:
www.dfge.de/en/cdp-climate-change/

With our **Sustainability Intelligence**, we integrate your corporate and product carbon footprints, climate risks, and target definitions into your Carbon Disclosure Project reporting.

You decide whether you want to use our modular services or a complete package for data collection, evaluation, response formulation and data upload.

CDP SME Disclosure

Especially for small and medium-sized businesses

Since 2024, the CDP has been targeting small and medium-sized enterprises with its new **CDP SME (Small Medium Enterprise) Questionnaire**. The aim is to reduce the reporting burden while increasing transparency.

Our DFGE experts support you with:

- Emissions calculation (Scope 1-3)
- Reporting in accordance with CDP requirements (strategy, risks and opportunities)
- Strategic consulting on emissions reduction and performance improvement in scoring

Webinars & Quick Checks 2025

- Introduction: CDP system & innovations
- Workshops: Data management & governance
- Exercise/practical webinars with case studies

DFGE Solution Overview

As an official Silver Climate Change Consultancy Partner, we have been supporting companies with compliant sustainability reporting since 2014 and are a partner for the submission of science-based targets.

Wolfgang Berger
VP Business Development & Sales

“Would you like to know why our customers have enjoyed working with us for years and keep coming back?”

www.dfge.de/en/customers_case-studies/

For over 25 years, DFGE – Institute for Energy, Ecology, and Economy has been supporting companies with sustainability intelligence solutions. Its services include corporate/product carbon footprint calculation and reporting solutions (CDP, UNGC, DJSI, EcoVadis, GRI, etc.). As the sole partner of the CDP for SBTs, DFGE provides customers with comprehensive support for climate strategy at the product level or company-wide for CO2-neutral business operations. Its customers include international companies (DAX/Fortune 500), medium-sized businesses, and the public sector. For more information, visit: www.dfge.de
